

## ADDENDUM #2

Please be advised: this addenda is being posted as 2 files.

1. The first answers questions we've encountered and clarifies why the second file is being posted.
2. The second file corrects the form where errors were identified.

1. **FORM EDITING:** In places where the amount of years requested is not specified, how many years should I include?
  - It was our intention to get the whole history as well as the recent history. This is how you will distinguish yourself as having more experience. If the question says total number (and doesn't specify a time-frame), it means in the firm's history.

<b>Total number of completed projects in which your firm served as Principal Engineer</b>	Total # in firm's History
---	---------------------------

2. **FORM REVISIONS NEEDED:** Section 2 | Waste Water (pages 13 & 14 of 20) & Section 2 | Potable Water (pages 16 & 17 of 20)
  - The pages labeled addenda 2 amend the form due to correct errors. Please replace the forms appropriately. We will be checking the footer to ensure that the addenda pages appear in your final submission.
  - The user inputted information into the cells on **Page 13 of 20** in original form was copying the information into the cells on **page 16 of 20**
  - Similarly, the user inputted information into the cells on **Page 14 of 20** in original form was copying the information into the cells on **page 17 of 20**

IF YOU ARE NOT SUBMITTING QUALIFICATIONS FOR CONSIDERATIONS ON POTABLE WATER OR WASTEWATER PROJECTS, YOU DO NOT NEED TO REVIEW OR INCLUDE THE CORRESPONDING ADDENDA PAGES AS NO POTABLE WATER OR WASTEWATER INFORMATION SHOULD APPEAR IN YOUR FINAL SUBMISSION.
