

EASY-TO-INSTALL SNEEZE GUARDS AND DIVIDERS.

Sneeze guards provide a layer of defense to help prevent the spread of coronavirus and other airborne pathogens. These guards are a friendly way to protect your employees, customers, and visitors while still allowing for interpersonal interaction.

Featuring modern round or square posts or gripper bases, choose what fits your space!

These sneeze guards and dividers act as a quick extension to cubicles, counter-tops and desktops to create safe, attractive and separated work spaces.

SNEEZE GUARDS WITH ALUMINUM BASE.

The attractive machined aluminum hardware sits low to the surface and provides maximum visibility. Can be mounted with either screws or high-power magnets.

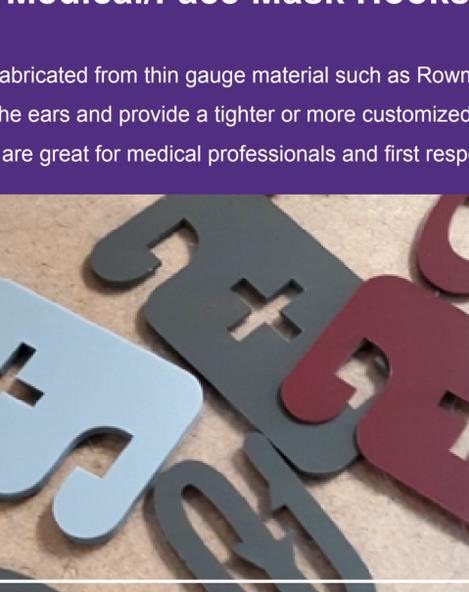

SNEEZE GUARDS WITH ALUMINUM FRAME.

Choose from square or round posts in a variety of pre-cut heights with clear acrylic in a variety of lengths. Can be mounted with either screws or high-power magnets.

All Barrier Kits Include:

- Wide size ranges available
- Kits ship flat, unassembled
- Easy-to-follow instructions
- Hardware & Allen Wrench included for quick assembly

Medical/Face Mask Hooks

These hooks are fabricated from thin gauge material such as Rowmark Lucent to help relieve stress on the ears and provide a tighter or more customized fit for face masks.

These are great for medical professionals and first responders.

Face Shields
